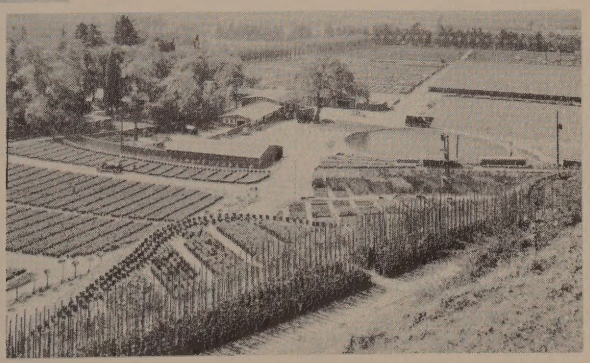
ONE OF our new mist propagation houses. Automatically controlled, maintains ideal growing conditions to produce healthy husky root systems.



WORLD'S LARGEST volume of container grown plants. Bed after bed of quality plants stretch into the distance. Soft snow waters fill the reservoir in the foreground.

FUMIGATION

For the convenience of buyers in those states whose laws require fumigation of incoming plant shipments, MN operates two modern fumigatoriums. Although this operation is under the expert supervision of a full-time entomologist, MN assumes no liability for plant damage or loss due to fumigation. Actual operation costs are charged as follows:

2¼" pots	2¢	1-gal.	7¢	5-gal.	25¢
3" pots	4¢	2-gal.	15¢	7-gal.	40¢

SHIPPING

All shipments are made by semi-truck. A full load will consist of approximately 4,000 1 gallon containers or 650 - 5 gallon or a combination of both. A combination or split load consists of several orders each consigned to different purchaser.

To have your order included in a combination load, a minimum order of $250.00 is necessary, and delivery will be made as soon as enough orders are accumulated to fill a semi-truck. This minimum order of $250.00 is required as the trucking concern under contract will make only a limited number of stops per trip. TRUCKING CHARGES ARE A CASH TRANSACTION AND ARE DUE TO MONROVIA NURSERY IMMEDIATELY AFTER DELIVERY OF STOCK. DO NOT PAY THE DRIVER.

When ordering a truckload beyond our free delivery area, packing, loading and bracing are free.
